

# Collaborate in Real Time with Xometry Teamspace

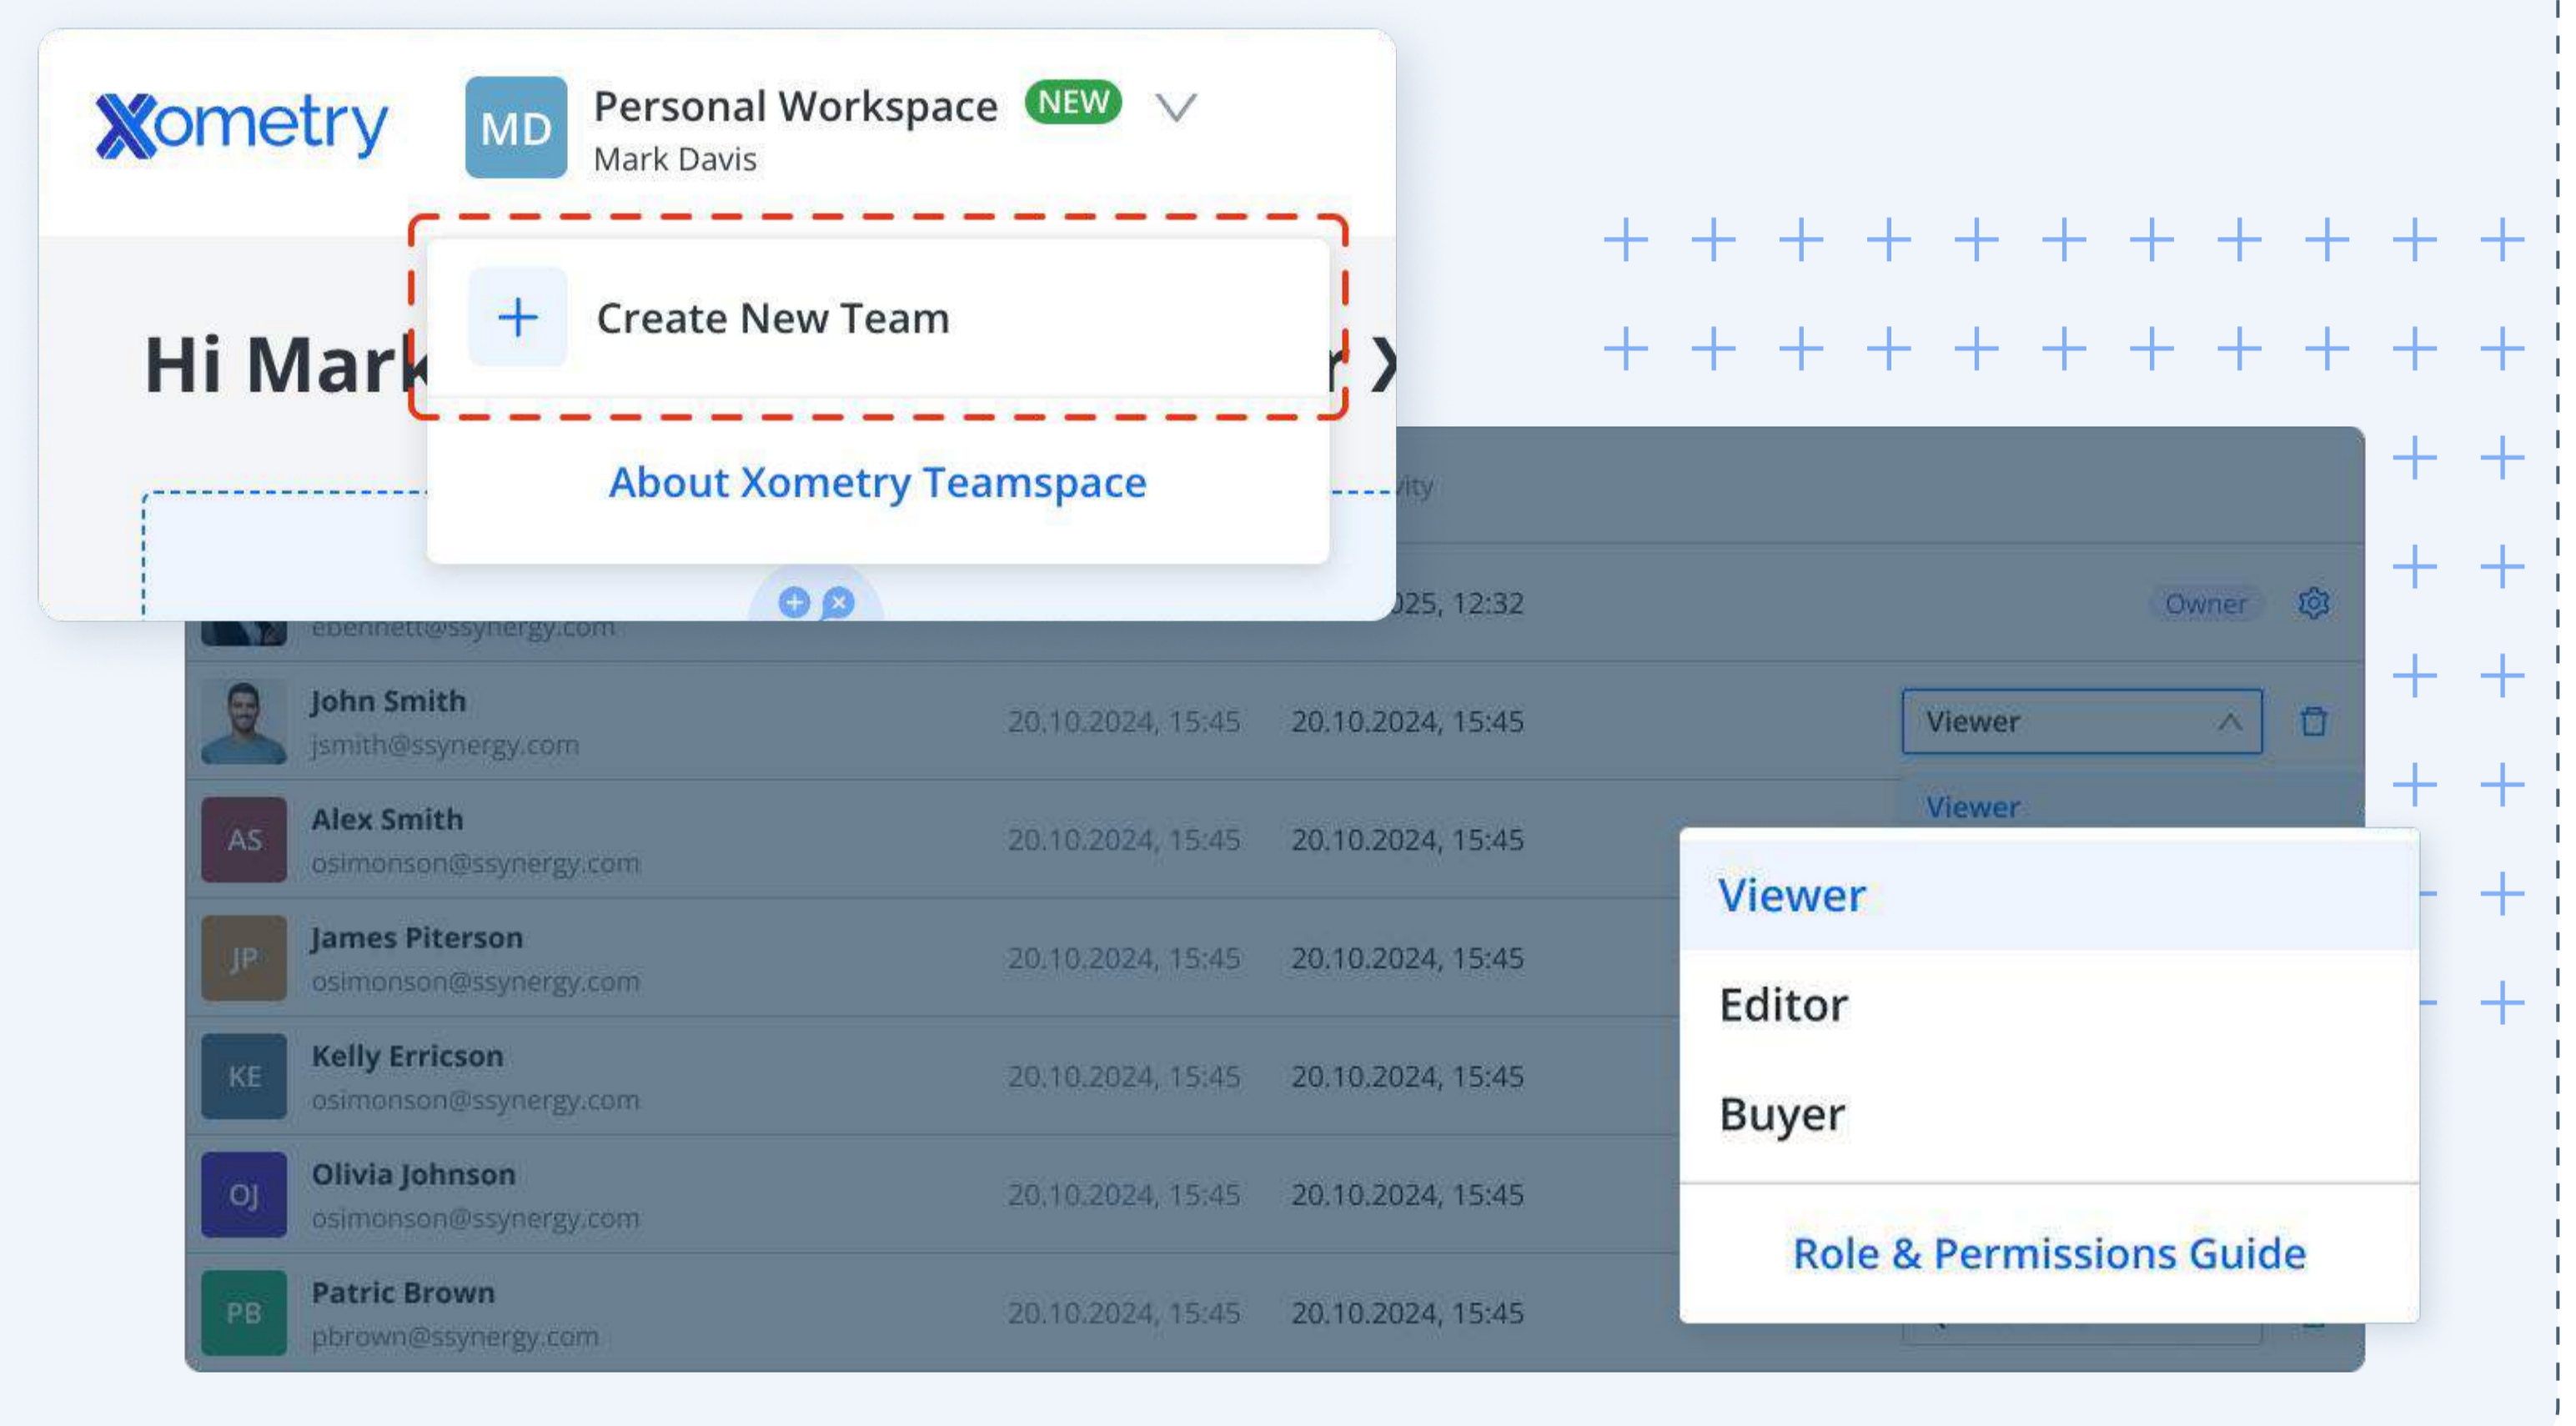

Teamspace allows you to invite colleagues, track orders, share quotes, and manage payment methods under one team account. It streamlines your workflow, giving engineering and procurement teams clear visibility and control over every project.

## Ready to Get Started?

1. Log in to your Xometry account
2. Set up your Teamspace & invite your team
3. Start collaborating in real time

## Key Benefits of Using Teamspace

- Share quotes, place orders, and track parts in **one organised space**
- Control **access and permissions** for each team member
- Create **unlimited workspaces** for projects, quotes, or departments
- Upload parts and **edit quotes together** in real time
- Place orders and **track project status** as a team
- Keep all data and communication in **one secure location**
- Collect and spend **X-points** together as a team
